Tell me why does my Healey go wrong at the most inopportune, awkward and embarrassing times. Is it just Sprites or is this

something that happens with all British cars? Is it a curse that lingers from when King Henry VIII defied the Pope and divorced his wife anyway? Never the less, it never fails for me. My car works fine until I get furtherest away from home, or in some other weird situation and then it fails. I was so uncertain with my BN1 that I carried a tow chain in the car all the time so my wife could tow me home when it croaked, which it did regularly. Hmmm, maybe it is not a curse on British cars, maybe it is a curse on ME!

‘Whooeee’ has been pretty good lately. There have been a couple of hiccups that probably should have warned me, but on the whole, she has been fairly reliable. Until last Friday, that is. I decided to go to the San Diego Auto Show and I called my friend, Jerry Staples. He called Pat McCarville and the three of us met at Jerry’s and he drove us to the Convention Center. I fired up

### Hey There Healey Folk...

### President's Message:

This year has started with a bang, we tried a new meeting place, Jimmy's of Santee. In case you weren't there it's a nice room. We have a nice Birthday sing-a-long for Jerry & Jan thanks to Susie Courtney who did a good job on the serving. Hope we can set the tables up a little better but we had more than our usual turn out, so that was a good thing!!

On January 22nd Lisa & I joined our VARA friend for the Annual awards dinner where Healey drivers Dewey De Butts, John Nikas, and I were awarded our Class Champion Plaques for HP-1, DP, & GP-1 my first time in the 33 years I've been racing. Pretty nice for very trying race year!!

First couple of things that are coming up very soon and one required a change in venue. First is the upcoming Hawk Watch this Saturday the 29th which has already been posted on the group's website, or you can call the Putzkes for more info.

Second, the SUPER BOWL party has been changed from the Ed & Abbie Nuemeyer's to Terry/ Lisa's house on the 6th of February @ 1PM with the usual men's chili cook off.

Next up, we will be moving the John & Mary mobile to the shop for a Tech session to try and finish, get it started, Etc. on March 19th starting @ 10:00 am.

Our Next Club meeting will again be @ Jimmy's of Santee 9635 Mission Gorge Rd 6:30 PM Feb 9th....

Hope To See You All There.  
Cheers, Terry

### Hawk Watch 2011 is going on in Ramona.

If you have never seen a hawk or any other native bird in its wild habitat, please join us for an interesting adventure on Saturday, Jan. 29. at 9:00 AM in Ramona. We will meet at the [Wildlife Research Institute](http://www.wildlife-research.org/hawkwatch.html), 18030 Highland Valley Rd., Ramona. For directions, please check: <http://www.wildlife-research.org/hawkwatch.html>

Please come early to get a parking spot near the Institute along Highland Valley Rd. The Wildlife Institute provides Coffee and Doughnuts for a donation. Don't forget to bring your binoculars and maybe a chair, if you can't stand for a long period of time. The weather should be nice and we encourage everyone to drive their Healey. After the Hawk Watch we will go on a scenic drive and have lunch at a local eatery.

**JANUARY AND BEYOND**

‘Whooooee’ and drove it to the top of the hill overlooking the 54 freeway. I parked there and left it at Jerry’s for the day.

We had a great time at the Auto Show. We looked at all the new iron and took in the Acuras, Lexus’ Cadillacs, Hondas, Fords, Chevys, etc. I saw the best looking Mustang

ever. I had a couple of good conversations about the Chevy Volt, and the Honda Clarity. We checked out all the private conversions. One fellow had an electric drag racer that tears up the quarter mile track then it has to be plugged in. There were a few classics that gave me an opportunity to shoot some photos.

We got back to Jerry’s mid afternoon and guess what. ‘Whooooee’ decided to not start. I ground and ground on the starter and nothing happened, not even a burp. Nothing I tried would coax any life. All of my ingenuity produced nothing but frustration. Then I noticed there was no sound coming out of the fuel pump. That’s it, I give up, Call AAA. There is nothing more embarrassing than riding in the cab of a big flatbed truck with your baby on the back with all the neighbors looking on with pity.

So, how did I spend New Years Day, you ask. Puttering under the bonnet greasing up my fingers and installing a new fuel pump and filter. Why not do something fun between the Rose Parade and the Rose Bowl Game?

*Editor’s Note: On page 8 is the Garage Talk for this month. I realize John McVeety is not a member of our club, but he and his wife have attended two of our Christmas parties and his car was restored by the Toy Shop. I considered this close enough to feature John in our Garage Talks. At any rate it was an interesting conversation and I am sure if they ever moved to San Diego they would join us.*

## AHCSD Drive to Colorado Springs for Conclave

We're planning to do a 4 day drive with 3 overnight stays on our adventure to the 2011 Conclave in Colorado Springs. We will start @ Bilstein in Poway on the June/29/2011 @ 8:00 AM and drive via country roads only. We drive every day 280-340 miles and need an early start, road worthy cars and a flexible group. Potty stops are on your own during the 2 gas stops and if needed. There will be some sightseeing stops if time allows.

Get your Car sound and safe with all liquids, air, brakes serviced before we take off. The tour will go over some Mountain passes like: Coalbank Pass 10,910ft, Red Mountain Pass 11,018ft and some more. Our cars will run rich in the mountains, but we will not adjust the carburetors on each hill, we just go slower in 3rd gear and keep the ventilator spinning.

Each person needs to get a "Western States Provinces" map from the AAA. Or, you can get maps of California, Arizona, Utah, and Colorado and have the route highlighted. GPS will help you but, the tour will not be loaded into your GPS.

### Upcoming Activities for February

# Garage Talks

As I drove up I saw a Healey parked in the drive under a cover. The McVeetys make it a habit of leaving

their home in Alpena, Michigan to follow the sun to San Diego. John met me at the door and we sat down and talked about his BJ8. He bought it new back in the late 60s and drove it every day, even in Michigan winters. John was a hospital administrator who wrestled with all the issues of staffing, budgets, buildings, and all the other stuff necessary to turn doctors into heroes, and nurses into angels.

It is easy to spot a car that has been driven any length of time in the mid west. They are usually more rust than solid metal. John's BJ8 was no different. It suffered a hard life and gave its all ferrying John to work every day over snow covered and salted roads in hard winters. Consequently, it arrived at the place where many owners would have given up and sent it to the scrap yard. John, to

his credit, decided to bring it back to its former glory. At that time he began to look for someone to do the restoration work.

Checking out the restoration ads, he found a bunch of less than satisfactory shops. His search finally led him to the Toy Shop in San Diego and Terry Cowan. Yep, our Terry. They agreed on a plan to restore the car for parts and labor. So bundle up the car, ship it to San Diego and let the work begin.

The journey back from the scrap yard to concourse is a long and expensive one. Neither

John nor Terry understood just how far gone the car was until they began to work on it. It was a matter of finding a worn out, rusted out part and replacing with a shiny new one, then finding another and replacing it, and another, and

another, and on and on. John said if he knew how bad it was in the beginning he would never have gone ahead with the restoration. But dealing with it bit by bit masked the enormity of the job. None the less, the finished product is a work of art and a testimony to the quality of work that

comes out of the Toy Shop. John is not finished with the car, there is still work to be done. Terry did NOT restore the back window!

The conversation with John was delightful. His house in Alpena is on Thunder Bay in Lake Huron. Living on the water like that can mean only one thing. He is into sailing. His wife, Katharine, is into horses. He has his boats and she has her horses. Coming to San Diego scratches more than one itch. The BJ8 can visit the Toy Shop, John can go sailing, Katharine can go riding with her friend in Poway, plus one of their kids lives nearby.

You might notice John has a slight limp. He found a worn out hip (I don't know if it was rusted out) and had it replaced with a shiny new one. Now he is looking at replacing the other worn out hip in April. I guess you could say John and his BJ8 have something in common. They are both being restored and looking forward to many more good miles.

And no, the Toy Shop does not do hip replacements.

### PARTS FOR SALE

*A friend in Canada (Orangeville, Ontario, north of Toronto) sent the following message:*

"I was given a bunch of Healey parts including a new aftermarket frame[maybe Moss] i,m not sure. but alas no seats. I also have an original very good frame off a Healey 3000 if any of your friends are interested they are for sale. I originally purchased the original frame when I was considering restoring a second 3000 but I think I am running out of steam. I have a ton of 3000 parts if any of the folks down there need any".

If you are interested please contact Barry Davis directly: <[davisbarry@hotmail.com](mailto:davisbarry@hotmail.com)>
