## From The Editor:

**I** was driving one evening on Willow Glen Road, to Dehesa Road and home. As I rounded a corner, Wiley Coyote was in my path. He was heading for a bag of trash, which was on the left hand side of the road. I didn't see it. I swerved, missed Wiley, and hit the trash bag head on. I had my headlights on low beam because of on coming traffic. Fortunately, there was no damage to car or Wiley.

There are always low light levels, at night, in the out-back, where I live. Standard Healey headlights seem even less powerful against newer and more modern headlights of on-coming traffic. I had planned to add relays to help out my standard H4 halogen bulbs. The word I received was they may help, but not much.

Udo's headlight conversion story is on pages 6 to 8. I am willing to be part of a tech headlight session, if Udo is up to it. Maybe, some time after Udo and Gisela return from Conclave, he will see his way clear to use my car for some show and tell.

Below is Wiley, or a close relative, drinking from my disappearing fountain. It's a much better and safer place for him than roadside scrounging...

See you on the 11th at the Kings Fish House...Warren

Hello everyone.

In September several members will be making the trip to Conclave in South Dakota. Conclave will be a great adventure, lots of sites to see and places to explore. Wish the best to those making the journey. Hope to see articles and pictures from Conclave, sent to Warren to share with us in the next HH publication. Thanks in advance.

Members really enjoyed our Breakfast on the Bay activity. Although it was a cloudy morning, the climate was great and so was the food. Doug Schmidt manned the primary cooking station preparing bacon and pancakes. Thanks to Doug for all his culinary effort. I'll cook with you anytime! Eggs and omelets were my contribution. All were in good spirits and thanks to everyone for bringing the muffins, baked items fruit and vegetables. Barbara really stepped up to help scramble all those eggs and helped sharing the plates of prepared food with everyone. Thank you Barbara! Special thanks to Lou for all your hard work buying foods and supplies and setting up the location for our gathering and the coffee. It was a great breakfast on the bay, once again.

At our next meeting, Lou will discuss our upcoming events and as a reminder, Sept 1, registration opens for British car day on October 12th. That should be a great time and fun gathering. Hope to see you there, in whatever vehicle you drive .

Our August club meeting at Anthony's Fish Grotto was a great place for us to meet. Later in year, maybe, we can meet out in the cabana off the water, as the weather will be more suitable. I was extremely happy to be inside, this time, in their great banquet room given we had a heat warning that week. Next month we will be meeting at King's Fish House in Mission Valley. V.P. Don mentioned this location a few months ago and it should accommodate us well. The room is in the back of the restaurant and it is private. That will work for us. Menu is pretty extensive so bring your healthy appetite.

We are still wondering if we will have an Oktoberfest activity this year. We have been asking membership to come forward as a volunteer host. The club will furnish food, beverages plates etc.... If you would like to be our host, please contact any member of your board. Thank you.

Look forward to seeing everyone at our meeting.

Regards,  
Howard

That party ran over \$200.00 by \$80 and it was moved and approved to reimburse Don. Gary wrote the check at the meeting. The club newsletter "Healey Hearsay" has run over by \$48 for printing costs. It was approved to pay Susie the \$48. Numbers of copies and printing/ mailing costs will be revisited by the board.

## October

- **October 9 Monthly Meeting-** Meeting may be during or after British Car Day. •
- **October 12th, Saturday - San Diego British Car Day - 40th Annual British Car Day, Spanish Landing, arrive before 9:00 am**

Register, from September 1st, at: <https://sandiegobritishcarday.com/events>

Saturday proved to be a popular choice, as opposed to Sunday, so we will continue to hold it on Saturdays. We have our reservation in for Spanish Landing Park East, in Cancer Survivor Park, but we also continue to search for other venues. We're always looking for ways to improve your experience, and bring our British Car culture to the public's attention, and with that in mind, the quest for best venues is never ending. One improvement that we have made, which we know will be a welcome change, is that if we offer a class, and even one car enters that class, we will not cancel or merge that class. In the past, we have required at least four cars to be entered at least a week in advance, in order to hold that class. This year, we will offer a solid class list, and every class will be

held, as long as there is at least one entrant by the deadline. We listened to your input and concerns, and we agreed that merging or canceling classes detracted from your experience at our show. The awards have also changed, and we think that you will be delighted!

Registration will open on **September 1st**, and you will receive multiple reminders and the link when it opens.

### *We're All Members of the Activities Committee*

## Austin Healey 3000 LED conversion by: Udo Putzke

### Get more light, but do it right.

On a rainy Sunday (with no rain)

Today I went into my garage to convert our AH 3000 to LED lights.

There are thousands of manufactures out from \$15 -\$250 and I found out, you get what you pay for.

We have Europe style asymmetric H4 reflectors installed in our car.

I started out with comparing the H4 Halogen light pattern with different LED H4 bulbs and ended up with the US\$ 170.00, Supernova V.4

### Symmetric vs. Asymmetric

Let's first explain the difference between Asymmetric and Symmetric light output.

The left shows the Symmetric Light, normal on US cars.

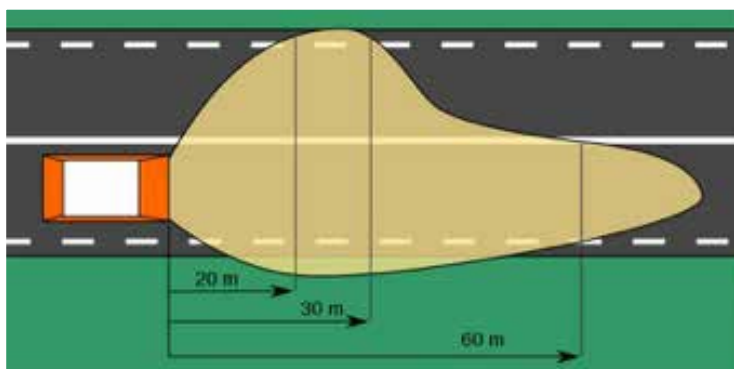

Below shows the Europe Asymmetric light.

As you can see the asymmetric points more to the right and light's up the right bank, staying away from oncoming traffic.

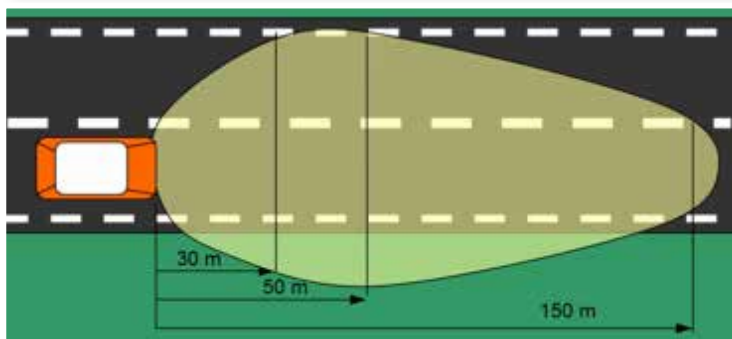

This is only at low beam, (driving light).

At high beam the light is more focused as a symmetric light.

European Asymmetric light

High beam only symmetric light

## The install:

The new LED bulbs have a power supply and fan, and that is a lot of meat what need to get inside the light housing. But with some pushing and rearranging, I got it all in to have clearance for the fan in the center. There is plenty of air flowing thru the housing to keep the lights cool. The LED can be rotated on their base, but for the perfect light output, they need to stay in there upright position.

## Old Halogen vs. new LED

Next is to get the reflector back in and see how the light output is. Check out the difference.

## And here is the final result!!!!

After a successful on one side, the other side were much more easy.  
Low beam is shown below The high beam is shown below right.

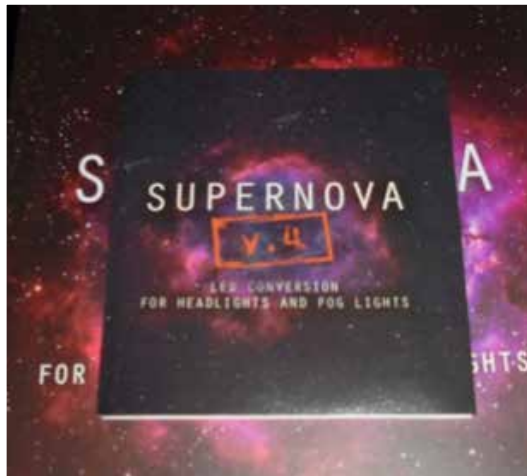

## And The New Set Up...

And “ola”, here is the new setup.  
A test drive will be done after  
the rain, (if it ever comes).  
If you like more information on  
this conversion,  
Contact me, Udo Putzke

### Brand and type, I used on our car

If you buy new H4 inserts, watch for left and right hand drive specification.

And now drive safe with the new light.

Udo Putzke

Breakfast On The Bay is one of my favorite events. I live in the dry out back-where water in large amounts is a luxury. I arrived as the cooks, er... Chefs, were under way. So I grabbed a cup of coffee and roll and waited for my term in the grub line.

Doug Schmidt was executive-chef of bacon and pancakes with Howard as Sous-chef de Cuisine of eggs and omelets Barbara Humphreys was lead egg preparer and head hostess. So everyone stepped up to the plate, so to speak. I did, and mine was full...

After breakfast, we kicked back and enjoyed the morning. Some of us headed off to inflatable kids gym to work off breakfast. Again, the club was at it's best, enjoying food, fun, and frolic...

**Above-** The crew setting up for breakfast. Coffee, fruit and rolls were a lead in to the main course.

**Right** Doug, executive chef of bacon and pancakes, under the watchful eyes of mom, Jan.

**Below-** Five musketeers, Lou, myself, Craig, Udo & Chico, looking well fed with smiles...

**Below right-** Some guy with an out-back hat in the background taking pictures...opps, thats me.

*Udo's parrot friend had a parrot breakfast too...*

## ...Was Food, Fun, and Frolic

**Left-** Bob says: "I know guys, lets run down and play on the kids slide." Allie says, "What a great idea, Lets do it..." Rick says, " Harrumph, it's kid stuff". Sooo, after corralling Barbara, they run down and, maybe, do it. Did they actually bounce and jump? I'll let you guess...They did sorta work off breakfast though...

**Below-** our faithful Healeys once again tethered in the parking lot...Skipped breakfast and were ready to head for home and the barn...er garage.

**Above-** Above- Ada and Richard Stevens chat with Donna Van Houten and Chic Linde after breakfast.

Other non-Healey British-built cars earn half points, but are not eligible to win the award.

All points received during the year by all members will be worth a discount towards the purchase of AHCSO regalia during the subsequent year. The total point leader at the end of the year will receive the coveted CAR OF THE YEAR badge for display on their Healey for the following year.
